

In the Nahmod, Wells, and Eaton, Constitutional Torts (2d ed.) casebook, read pages 1-17 and 20-23. Include Notes 1-6 on page 17 in your reading.

As for Notes 7-11 on pages 18-20: These notes anticipate many issues that will recur as we go through the course. We are not ready to address them now. I suggest only skimming these notes to begin the process of learning about the issues they raise.
