

Aviation Law – Fall 2009

Information & First Class Assignment

For the first few class sessions we will discuss basic principles of the regulation of industry and the tapestry of theories which now exist on these schemes. In order to prepare for the first class, students should retrieve and read the following article from Lexis, Westlaw, or Heinonline:

Richard A. Posner, *The Effects of Deregulation on Competition*, 23 Fordham Int'l L.J. 7 (2000).

Students looking to get a leg up on reading for the second and third class sessions should also retrieve the following piece:

Joseph D. Kearney & Thomas W. Merrill, *The Great Transformation of Regulated Industries Law*, 98 Colum. L. Rev. 1323 (1998).

Any students with questions about the readings or the first class should contact Gabriel Sanchez at 312-362-7315 or gsanche5@depaul.edu.
